Equivalent to
NVQF Level 5

Target Group
Construction Supervisors
Technical Officers

Medium English
(Sinhala/Tamil will be used when required)

Duration
1 Year
(Part-time)

Focus on being productive instead of busy

Why is this diploma significance for the Sri Lankan construction sector?

The DCLPPM is willing to be an ideal programme for the Sri Lankan construction sector. The programme meets the industry needs and expectations, and includes effective and innovative practices for the productivity improvement in the industry through proactive education and training strategies. It clearly specifies the competencies, knowledge and attitudes of the construction industry practitioners. The curriculum of this diploma programme was systematically developed by the experts through an extensive investigation conducted in the Sri Lankan construction industry with the direct scope of improving the performance and productivity of the construction workforce. The DCLPPM includes outcome-based teaching, learning and assessments with relevant quality assurance practices. The academic activities of this programme will be delivered by the university lecturers and qualified engineering experts from the industry. The most significance of this diploma programme is the inclusion of labour training exercises in the Training of Trainers Project. This will enable the course followers to train labourers in the construction sites through demonstrations, guidelines and other relevant activities/tasks. Training of Trainers Project Guide Book will be delivered among the course followers at the beginning of the programme. The course followers will also get opportunities to be awarded with 'Best Labour Trainer Award' and 'Labour Training Merit Awards'.
